PROFILE

Full Stack Software Developer leveraging my background in customer service to build more intuitive user experiences on the web. Recently earned a certificate in Full Stack Development from University of Birmingham and developed skills in JavaScript, CSS, React.js, Node.js and responsive web design.

I am able to collaborate and work with a team while solving problems in high-stress environments. An articulate individual who enjoys connecting with co-workers and is passionate about building applications that assist everyday people to make their lives easier. Looking to bring my attention to detail and technical skills to a company to grow and become a valuable asset.

TECHNICAL EXPERIENCE

LEAD DEVELOPER | LANGUIGI

This is an application for people abroad that allows them to translate their favorite phrases into the most popular languages in an instant. This application also allows the users to plan their day ahead by the checking how the weather is like as it has a weather dashboard.

TECH STACK: HTML, CSS, Bulma CSS, JavaScript, API
PROJECT LINK: https://a89ball.github.io/Translator/

BACKEND DEVELOPER| EMPLOYEE MANAGEMENT SYSTEM

Node.js command line-based employee management system with commands to add and manage Employees, Roles and Departments.

TECH STACK USED: Node.js, Express.js, MySQL
PROJECT LINK: https://github.com/Mahmoudcali02/the-employee-tracker

BACKEND DEVELOPER| ECOMMERCE BACKEND

Built the back end for an e-commerce site. I have configured a working Express.js API to use Sequelize to interact with a MySQL database.

TECH STACK USED: Node.js, Express.js, MySQL, Insomnia
